

10 Codex Prompts

Gazgan City Flutter prototipi uchun tayyor AI/Codex promptlar.

Hokimiyat tomonidan qo'llab-quvvatlanadigan rasmiy shahar xizmatlari platformasi.

Codex uchun asosiy prompt

You are a senior Flutter UI developer.

Create a Flutter mobile app UI prototype named "Gazgan City".

Important:

- UI prototype only.
- Do not connect backend.
- Do not use Supabase yet.
- Do not use Firebase.
- Do not add authentication.
- Do not integrate real Google Maps yet.
- Use mock/static data only.

Project concept:

Gazgan City is an official city service mobile app for G'ozg'on city. The app includes official news, sayyor qabullar, local listings, city map objects, taxi, useful contacts, companies, services, jobs, and profile.

Strict restriction:

Do not add Gazgan Invest. Do not add marble products, investment projects, ROI calculator, marble trade, marble export, or marble catalog sections.

Design style:

Premium Official City App. Light theme, white background, dark navy text, official blue accent, soft gray cards, subtle gold badge, rounded cards, clean and readable Uzbek UI.

Bottom navigation:

Bosh sahifa, Xarita, E'lonlar, Yangiliklar, Profil.

Build screens:

1. SplashScreen
2. HomeScreen
3. MapScreen
4. ListingsScreen
5. NewsScreen
6. ProfileScreen

Code requirements:

Use feature-based folder structure, reusable widgets, AppColors, AppTextStyles, AppTheme, mock data files, SafeArea on every screen, no overflow, no clipped text, polished production-like UI.

HomeScreen uchun qo'shimcha prompt

Build HomeScreen with header, badge, weather card, official announcement banner, quick actions: Sayyor qabullar, Yangiliklar, Taxi, Ishonch raqamlari, Gazgan OLX, G'ozg'on xaritasi, Barcha toifalar, Ustalar. Do not add Gazgan Invest or Marmar Market.

MapScreen uchun qo'shimcha prompt

Create a mock G'ozg'on map screen with search, category chips, markers for hokimiyat, maktablar, kasalxona, taxi, korxonalar, savdo, xizmatlar and selected place card.

ListingsScreen uchun qo'shimcha prompt

Create E'lonlar screen with search, filter, categories, safety banner, listing cards with image, price, title, location, time, views and favorite button.

NewsScreen uchun qo'shimcha prompt

Create Yangiliklar screen with category chips, featured official announcement and list of official news, sayyor qabullar, tadbirlar and obodonlashtirish updates.

ProfileScreen uchun qo'shimcha prompt

Create Profil screen with user card, edit buttons, menu items: Shaxsiy ma'lumotlar, Mening e'lonlarim, Saqlanganlar, Admin xabarlari, Biznes hamkorlik, Telegram orqali yordam, Til, Foydalanish shartlari, Maxfiylik siyosati, Ilova versiyasi, Chiqish.
